

Molecular Diagnostic Products

ROBOSCREEN
DIAGNOSTICS

INDIVIDUAL
consultation

FLEXIBLE
viral NA extraction

SENSITIVE
quantitation of blood borne HEP viruses

RELIABLE
for common PCR devices

CUSTOMIZED solutions for your
DIAGNOSTICS

Nucleic acid extraction

- CE-IvD marked extraction of viral RNA and DNA
- Manual and automated solutions for low as well as high throughput laboratories

Viral Hepatitis Diagnostic Kits

- Real-Time PCR based CE-IvD marked diagnostic kits for HBV, HCV and HDV
- Precise. Reliable. Highly Sensitive.

Nucleic acid extraction kits

Flexible solutions for low as well as high throughput laboratories

Nucleic acid extraction - Kits

Order number	Description	Quantity
847-0259200602	INSTANT Virus RNA/DNA Kit	50 reactions
847-0259200603		250 reactions
847-0259200802	INSTANT Virus RNA/DNA Kit – IPC16	96 reactions
847-0259200902	INSTANT Virus RNA/DNA Kit – FX (for 800 µl sample volume)	1x 96 reactions
847-0259200903	INSTANT Virus RNA/DNA Kit – FX (for 200 µl sample volume)	4x 96 reactions
847-0259200904	INSTANT Virus RNA/DNA Kit – FX (for 400 µl sample volume)	2x 96 reactions
847-0259200906	Rapid INSTANT Virus RNA/DNA Kit – FX (for 400 µl sample volume)	2x 96 reactions

Consumables for automated extraction with InnuPure C16 touch

Order number	Description
847-FX-TIPS-1000	FX Filter Tips 1000 µl (16 x 96 tips)
847-0206201001	Carrier RNA (1 Tube)

Consumables for automated extraction with CyBio FeliX

Order number	Description
847-FX-TIPS-1000	FX Filter Tips 1000 µl (16 x 96 tips)
847-0206201002	Carrier RNA (6 Tubes – for using 400 µl protocol)
847-0206201003	Carrier RNA (12 Tubes – for using 200 µl protocol)
847-0206201004	Carrier RNA (3 Tubes – for using 800 µl protocol)
847-0259200922	Prefilling Set 800- FX (for 1x 96 reactions)
847-0259200932	Plate Set 800 – FX (for 1x 96 reactions)
847-0259200923	Prefilling Set 200- FX (for 1x 96 reactions)
847-0259200934	Plate Set 200 – FX (for 1x 96 reactions)
847-0259200924	Prefilling Set 400- FX (for 1x 96 reactions)
847-0259200933	Plate Set 400 – FX (for 1x 96 reactions)
847-0259200936	Plate Set 400 Rapid – FX (for 1x 96 reactions)

Hardware

The extraction platform InnuPure C16 touch and the liquid handling station CyBio FeliX (including Laptop, Software and Extraction Set) as well as qPCR device qTOWER³ are available on request.

Hepatitis diagnostic kits

Precise and reliable

RoboGene Product Family – Hepatitis Viruses

Real-Time PCR based reliable quantification of HCV RNA, HBV DNA and HDV RNA

Order number	Description	Quantity
847-0207610032		32 reactions
847-0207610096	RoboGene HCV RNA Quantification Kit 3.0	96 reactions
847-0207610192		192 reactions
847-0207710032		32 reactions
847-0207710096	RoboGene HBV DNA Quantification Kit 3.0	96 reactions
847-0207710192		192 reactions
847-0207400544	RoboGene HDV RNA Quantification Kit 2.0	32 reactions
847-0207400542	(for Rotor-Gene® 3000/6000/Q)	96 reactions
847-0207400584	RoboGene HDV RNA Quantification Kit 2.0	32 reactions
847-0207400582	(for 7500 Fast and LightCycler® 480)	96 reactions
